

D3_plot tool user manual

Step 1: Open `"/D3_plot/index.html"` in your favorite web browser.

Step 2: Select "Choose File" button to load the coordinates file as depicted in the following picture.

Step 3: From the new dialog box select the coordinates file `'./Datasets/EdgeList_Legal_Entities.inf_coord.json'` as depicted on the following picture.

Step 4: The resulting figures allow user interactions, such as, mouse dragging and zooming functionality using the mouse wheel to zoom in and out of the figure. Finally, you can export the figure as an SVG image by clicking on the "Download SVG" button as depicted on the following picture.
